Home Exchange

Have you ever wanted to travel to far away places and live like a native but somehow there never seems to be quite enough money to get you there? Well have you ever thought of Home or House exchange holidays? It's the vacation with a difference, because you find the dream destination and all you have to book is your flight. You stay in the house exchange family house and usually have the use of their car also and they in turn stay in your home and have the use of your facilities. If you like the sound of this then visit www.homeisaway.com for your one stop Home or House exchange holiday vacation. You can visit www.homeisaway.com and you will not only find your dream destination in Australia, New Zealand, United States of America, European destinations such as France, Spain, England, Scotland, Bulgaria, Netherlands etc. but you can also book your flights, car hire and insurance and find information on guide books, maps and language courses – it's a one stop shop.

Last year my partner and I tried a home exchange holiday in Denver Colorado and it was the best. We were living in a superb neighbourhood and enjoyed

the community and the shopping. We were also able to afford to go on a weeks trip to Utah and Arizona which had we have had to pay for car hire and hotels for the whole duration of the holiday we would not have been able to afford. We are now planning our next home exchange holiday and hope to visit Australia.

There are lots of people who say “I don’t like the idea of strangers living in my house whilst I am not there”, but don’t forget you are living in their house and by the time the holiday date comes around you have e-mailed them and phoned them so they feel like friends. Perhaps you have a second vacation home which could work just as well for the exchange. If you have got a second vacation home and you rent it out for part of the year then you can advertise the house on www.homeisaway.com free of charge.

What is HomelsAway.com

HomelsAway.com was set-up by a mother and son team (Rachel and Sam Smith), who both own property in Spain and have experience in renting out Vacation/Holiday homes.

We decided that all the rental/swap/sale websites we looked at were complicated and did not have enough information about the houses or the area they were situated. So we decided that we would design a web-site which is easy to use but at the same time gives that all important information. The idea of the advertiser putting on their own property details and it appearing on the web site immediately seemed to be the way to do it. Indeed most web sites are manually maintained and therefore the ad will not appear for several days and are very locally based without the vision of world wide appeal.

You can be assured by advertising with us that your property will be promoted using the best web software available! Our property rental/swap/sale Web is **highly optimised for Search engine rankings, to give you maximum Web exposure!**
